The application has been amended as follows:

In the claim:

Claim 7, line 1, after "object", the phrase --as claimed in claim 6-- has been inserted.

It is believed claim 7 is intended to depend on claim 6 however, applicant inadvertently left out the dependency.

2. The following is an examiner's statement of reasons for allowance:

The present invention pertains to a 3-dimension scanning system and method, which uses optical grating and two digital cameras to capture image, and synthesizes the images captured by the digital cameras into a 3-dimension image by software scanning technology, and then uses a 3-dimension error diffusion distributed table to execute point cloud and outputs the point cloud data to an object by Laser pulse form. The invention as claimed in independent claims 1 and 6 are neither anticipated nor obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
